

Numbers

There is only one right answer for how to know God.

Prep

Write 4 simple math problems on a whiteboard. Under each problem, offer 3 different possible answers.

Mark your Bible to John 14:6.

Demonstration

Have a volunteer go up to your whiteboard and circle which answer is correct for each of the math problems.

Then go over all the problems with the class to verify if they are correct or not.

Object Lesson

“Did anyone notice how each problem only had one right answer?”

It wasn’t that some of the numbers were better than others, or that we didn’t like certain numbers. It wasn’t a matter of preference or opinion. There was a right answer and a wrong answer.

Just like with these math problems, there is only one right answer for how we can have a relationship with God.

Many people believe that there are many ways that we can know God. They say you can just be a good person, or that you can believe in any god you want to. Maybe you’ve heard the statement “there are many paths to God” or “many ways to get to Heaven.”

The problem is that this is the exact opposite of what the Bible says.

In John 14:6 Jesus himself says, *“I am the way and the truth and the life. No one comes to the Father except through me.”*

Wrap Up

“Just like 2+2 only equals 4, Jesus is the only right answer of how to know God and how to go to Heaven.”
